

# RIKKE BLOM THØGERSEN

*I specialise in online communication, and take pride in constructing well-produced written and visual texts. Over the last couple of years, layout, web development and graphic design have become some of my favorite genres. I enjoy working in dynamic teams with room for both personal initiative and exchange of ideas.*

## FREE TIME AND HOBBIES

In my freetime I love to be creative and I often experiment with new projects and materials. My friends and I enjoy playing board games, cooking and watching movies when we are together. Every other weekend I play Dungeons and Dragons online.
